

Hi! My name is Jacob and I'm currently a sophomore here studying computer science. I'm passionate about learning cyber security and love competing in capture the flag hacking competitions in my free time. I'm a strong advocate for open source software and like to contribute whenever I can. Outside of academics, I really enjoy playing soccer in intramural leagues and in the futsal club. To express my creative side I like to do leatherworking. I've been at it for a few years now and make things like belts, wallets, and cases for everything I can think of. Aside from that I just like to explore Ann Arbor to find new restaurants and study spots. Before the end of my four years, I'm hoping to try every coffee shop in the city!
